

# EMBO scientific seminar

## Main Conference Hall, BIOCEV

Průmyslová 595, 252 50 Vestec

**Monday, 18 May 2026**

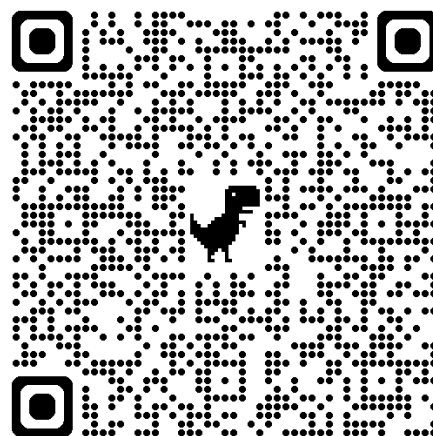

Please arrive by 1520

**EMBO is presenting a special scientific seminar to celebrate Czech contributions to European science.**

In addition to presentations and discussion of latest research results, the event will provide Masters and PhD students and early career researchers with information on EMBO funding opportunities in the Czech Republic. A networking event will also give attendees an opportunity to meet senior members of the EMBO community.

- 1530 Professor Pavel Martásek – introduction
- 1535 Professor Fiona Watt (EMBO) – Epidermal stem cells
- 1550 Professor David Staněk (IMG) – Towards treatments for inherited retinopathies
- 1605 Dr Kateřina Rohlenová (BIOCEV) – Metabolic communication in tumors
- 1620 To be confirmed
- 1635 Questions and discussion
- 1645 Professor Watt - introduction to EMBO
- 1710 Questions and discussion
- 1730 Networking
- 1830 Ends

**Please use the QR code to register to assist in catering**

The schemes and support offerings are funded with means from EMBC.
